

# Sedeer Medical Calibration Division

Trust our precision

[www.sedeer.com](http://www.sedeer.com)

# Sedeer Medical Services & Trading LLC

Sedeer Medical Services & Trading is an ISO-17025 Accredited calibration laboratory by The International Accreditation Service (IAS), with a scope as Mechanical, Dimensional, Electrical, Thermal, Force, volumetric, chemical, Gas, Biomedical, and Survey Calibration.

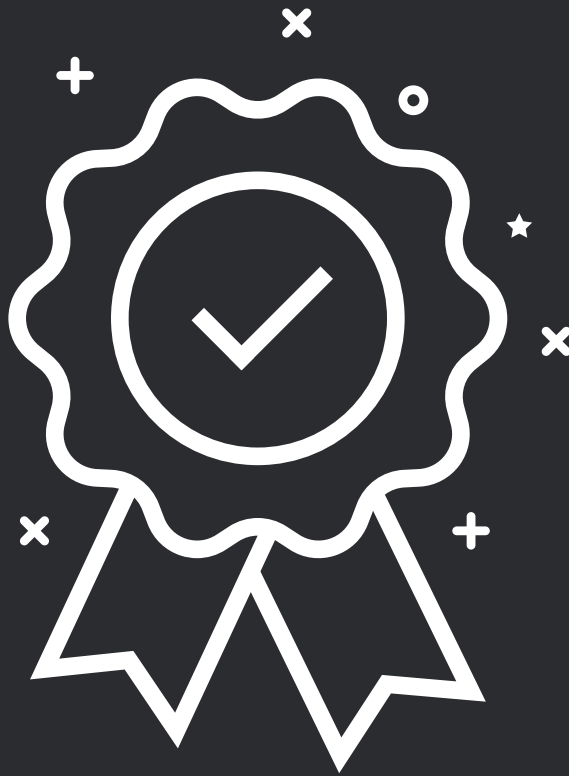

# To set a benchmark in Precision & Quality Standards in the field of Calibration

## Table of Content

 Accreditations & Certifications	04	 Chemical/Gas Calibration	10
 Services we offer	05	 Volumetric Calibration	11
 Electrical Calibration	06	 Environmental Calibration	11
 Mechanical Calibration	07	 Clean Room, Biomedical & Laboratory Equipment's Calibration/Validation	12
 Thermal Calibration	08	 Onsite Calibration Services	13
 Dimensional Calibration	09	 Asset Management & Recalibration Reminder Service	14
 Survey Equipment Calibration	10	 Our Competitive Edge	15

# Our Accreditations & Certifications

## Laboratory Services

Equipment will be picked up and delivered in a safe way without charge.

## On-Site Service

On-site calibration services delivered by our certified, experienced engineers are consistently accurate, efficient, and traceable.

## Asset Management

We offer different levels of asset management online, including equipment calibration status, calibration due date, automated recalls, and certificates.

# Electrical Calibration

- » Digital Multimeter
- » Clamp Meter
- » Earth/ Ground Resistance Tester
- » Portable Appliance Tester
- » RCD Tester
- » Process Calibrator
- » Multifunction Tester
- » Primary/ Secondary Injection Kit
- » HV Testers
- » Cable Detector
- » Welding Machine
- » Voltage Current Test Set
- » And many more

# Mechanical Calibration

- Electronic / Analytical Balance «
- Standard Weights «
- Pressure / Vacuum Gauge «
- Pressure Calibrator «
- Pressure Transmitters / transducer «
- Chart Recorders «
- Pressure switches / PRVs «
- Manometer «
- Air flow Anemometer «
- Stopwatch / Timer «
- Torque wrenches / Meters «
- Vibration Meter / Sensors «
- Mechanical Shaker «
- Centrifuge «
- Force Calibration «
- Force Gauge «
- And many more «

# Thermal Calibration

- » Thermometer
- » Pyrometer
- » Temperature Sensor
- » Temp Data Logger
- » Infrared Thermometer
- » Thermal Scanner
- » Oven
- » Autoclave
- » Muffle Furnace
- » Refrigerator/ Freezer
- » Incubator
- » Dry block Calibrator
- » Water/ Oil Bath
- » Cold Storage Room
- » And many more

# Dimensional Calibration

Coating Thickness Gauge «  
 Durometer «  
 Angle «  
 Test Sieve «  
 And many more «

Caliper «  
 Micrometer «  
 Gauge Block Set «  
 Dial/ Digital Gauge «  
 Plain Plug Gauge «  
 Thread Plug Gauge «  
 Taper Plug Gauge «  
 Thread Ring Gauge «  
 Snap Gauge «  
 Laser Distance Meter «  
 Steel Ruler «  
 Measuring Tape «  
 Lever Gauge «  
 Marshall Compactor «  
 Feeler Gauge «  
 Height Gauge «

# Survey Equipment Calibration

- » Auto Levels
- » Optical Station
- » Theodolites
- » Total Station
- » And many more

# Chemical/Gas Calibration

- » pH Meter
- » Conductivity Meter
- » Gas Detector
- » Turbidity Meter
- » TDS Meter
- » Chlorine Meter
- » And many more

# Volumetric Calibration

- » Micro Pipettes
- » Burette
- » Volumetric Flask
- » Graduated Cylinders
- » Beakers
- » And many more

# Environmental Calibration

- Lux Meter «
- Sound Level Meter/ Calibrator «
- Humidity Chamber «
- Hygrometer «
- Sling Psychrometer «
- And many more «

---

# Clean room, Biomedical & Laboratory Calibration or Validation

- » Clinical Lab Rooms
- » OT Rooms
- » Clean Rooms
- » Biosafety Cabinets
- » Laminar Air Flow
- » Fume Hood
- » Ventilators
- » Defibrillators
- » Cardiac Monitors
- » Anesthesia Machines
- » And many more

# Onsite Calibration Services

Sedeer Medical Calibration Division can calibrate a wide range of devices at any location, resulting in faster turnaround times. Our engineers will come to the destined location and calibrate equipment for precise and accurate results.

- » With large resources of technical staff, mobilization of the team is available on short notice.
- » Our generous investments in assets and resources enable us to handle multiple activities parallelly.
- » Mobility to provide timely service to your facility.
- » On-site calibration and related services during plant shutdown and maintenance.

---

# Asset Management & Recalibration Reminder Service

We can provide a service that keeps track of equipment calibration dates. This is part of our dedication to calibrating equipment on time, not just to ensure peace of mind, but also to enable clients to make the best decision possible at the right moment. Furthermore, the service contracts are customized to match the instrumentation service demands of our customers.

Each calibrated piece of equipment or instrument is documented and stored in our systems for five years. This will ensure that you maintain track of your instrument's service intervals regularly.

---

# Our Competitive Edge

- » Our labs are environmentally controlled, ensuring the right conditions for accurate measurements.
- » Calibrate a variety of Mechanical, Dimensional, Electrical, Thermal, Force, Volumetric, Chemical, Gas, and Survey Calibration.
- » Our services are in full compliance with the ISO IEC 17025 standards.
- » Instruments ranging from simplest to the most complicated can be calibrated by our qualified professionals.

# CONTACT

For any calibration support, contact us
